KRONE STYLE PUNCHDOWN TOOL

Description:

Impact Punch Down Tool for Krone and AMP Module

Serveredge Impact Punch Down Tool is used to insert individual wires into the UTP modules on wallplates and patch panels. This tool is designed for use on any Krone and AMP style IDC terminal and will automatically trim the wires to the correct length as the connection is made / insertion is undertaken. The tool also incorporates a hook attachment for removing wires from IDC terminals and a spudger for cleaning debris off the panels.

- Suitable for terminating data cables, data jacks and distribution frames
- Ergonomic design
- Combination hook and blade
